

April 29, 2009

As the Office Manager for an engineering consulting firm (Shrewsberry & Associates), it has been a pleasure working with Bob Chandler as Website Designer and Developer during the past two months.

Bob's knowledge of web design, search engine optimization and web marketing has helped make our new website a great success. He helped transform our small 6-page website into a large website- all professionally designed and optimized. Bob did a great job of incorporating the various elements of the company brand into the website.

I greatly appreciated Bob's ability to explain different elements of the website design process in non-technical terms. Bob took ownership of the project and delivered the finished product on time an exceeding expectation.

I give Bob my strong personal recommendation. If you should have any questions, please feel free to contact me.

Sincerely,

Missy Quiggins
